

Guardians Of Hope™

- by Cliff Evans SFO, MA
CPC Executive Director

The Guardians of Hope 50th Anniversary Campaign was created to build sustainable funding. Fifty years of service is an incredible milestone worth celebrating. CPC has maintained its focus on the needs of cancer patients and their families during challenging times. We have stayed true to the founding vision of those supporters who realized decades ago that people battling cancer deserve a fair chance — and that surviving cancer should never depend on income level or personal wealth.

We are at a crossroads. Charities vie for community support and compete for shrinking resources. Many raise millions of dollars for cancer treatment and advocacy but can give nothing directly to help the people fighting this deadly disease. One way to cure cancer is to help those who have cancer. That's what we have done for 50 years.

Cancer survival rates have grown to more than 70 percent, but one in three Americans still will get cancer in their lifetime. Cancer shouldn't be a death sentence for those who have little or no insurance and don't have the money to fight it properly. Most patients we help are just like you — hard-working, dedicated citizens with homes and families. Ask yourself: "If I got cancer, what would happen to my family and me when I lost my job, insurance and hope?" Fortunately, thanks to those who have supported Cancer Patient Care these past 50 years, there is help — and hope.

You can share this hope with cancer patients and make sure they have a fighting chance. Pledge today and become a Guardian of Hope. All the money raised here stays here.

Having no ties with large national or statewide organizations, we need community support to help cancer patients in our own community and region.

Join our hundreds of friends who have made a multi-year pledge of support. You can make sure local cancer patients have a place to turn for help and hope when they need it most. Thank you.

Ambassador level guardians of Hope donors receive a limited edition Angel's Hug statue honoring their generous commitment to our mission and those we serve.

Guardians of Hope Ambassadors are a special group who pledge a minimum of \$1,000 for at least three years or more. We would like to recognize the individuals and organizations below who have given so generously to Cancer Patient Care.

Ambassadors of Hope

\$25,000 Level

"At Northern Quest Casino, we understand the devastating affects cancer has on patients and families throughout our local region. That's why, as Guardian of Hope Ambassadors, we support the programs of Cancer Patient Care which provide for emergency financial relief, transportation, and other essential necessities to those fighting the battle against cancer."

— Tim Quinn, Controller, Northern Quest Casino
