Joseph G. Rosales MD,
Jessica A Taylor A.R.N.P.

The new Medical Oncology Associates building

Medical Oncology Associates P.S. celebrated its seventh anniversary in practice in 2007. This practice was started by its founder, Dr Arvind Chaudhry MD, PhD as a solo practitioner June 1st, 2000. Dr Arvind Chaudhry MD, PhD was recruited by Providence Hospitals, Sacred Heart Medical Center and Holy Family Hospital, to provide Medical Oncology services at Holy Family Hospital and to head the cancer programme at Holy Family Hospital. Since then Medical Oncology Associates P.S. has grown tremendously, based on the premises of providing high quality oncology and hematology care in the community.

Medical Oncology Associates P.S. has a strong emphasis on providing multidisciplinary cancer care in the community. This is reflected by the multiple tumor boards in the community that have been initiated or completely supported by Medical Oncology Associates P.S. The practice has provided the back bone for development of Providence Cancer Center at both hospitals, Sacred Heart Medical Center and Holy Family Hospital. The practice has committed itself to championing multidisciplinary cancer care through tumor board presentations of new cases and through the use of telemedicine services. Medical Oncology Associates P.S. has also committed to cancer research and committed to bring in high quality cancer treatment trials to the community through the clinical research department at Providence Cancer Center.

Medical Oncology Associates north services have moved to a new building which houses the practice and its services all under one roof. Radiation oncology services are available at close proximity on Holy Family Hospital campus. The practice also provides two satellite locations, one in Colville and another in Colfax.

Medical Oncology Associates P.S. has three providers in addition to a very capable infusion and imaging center staff. The three providers are Arvind Chaudhry MD, PhD, Medical Oncologist/Hematologist trained at National Cancer Institute, Bethesda,

MD. His special interest are breast, colon and lung cancer, in addition to clinical trial development. Dr Joseph G Rosales M.D. is also a Medical Oncologist/Hematologist trained at City of Hope Cancer Center, Duarte, CA. His special interests are prostate, breast, colon cancer in addition to malignancies of blood and lymph glands and bone marrow transplantation. Jessica A Taylor A.R.N.P. received her training at Gonzaga University and her special interests are in breast cancer and supportive care.

The providers of Medical Oncology Associates strongly believe in the mission and values of Cancer Patient Care and is proud to be a partner. We congratulate you on your 50th anniversary and feel your services are indispensable to the cancer community.

Medical Oncology Associates, P.S. is proud to host "Lilly Oncology on Canvas", International Art Exhibit on Feb. 28 & 29 at 6001 N. Mayfair, Spokane. This unique art exhibition honors cancer patients and their care givers' cancer journey through art.
