

Getting Involved

"We don't want our treatment to be interrupted by logistical problems with transportation, insurance or financial needs... we want our treatment to be seamless. All of the social issues Cancer Patient Care can deal with helps us deliver adequate treatment for cancer."

— Arvind Chaudhry, MD, PhD

"Cancer can be a devastating disease. Cancer Patient Care helps patients and their families by not only providing them with essential resources, but by restoring their hope."

— Ryan Holbrook, MD

"Cancer Patient Care is a unique, cutting edge resource that makes all the difference to the survival of cancer patients in our community. We simply can't afford not to support CPC and let it go away. If we do, we will never get it back."

— Kirk A. Lund, MD

Joint Message of Support

Each of us practices within a different group of physicians and cancer treatment organizations. However, as healthcare professionals dedicated to defeating cancer, we work side by side to ensure our patients receive the very best care possible. That is why we are proud to stand together and ask all of you in our community and region to join us in supporting Cancer Patient Care. The services CPC provides help support our patients during their battle with this deadly disease. They have been doing this for 50 years. We need them to continue to be a vital part of our team to provide the continuum of care our patients deserve to receive. Please respond with your support for Cancer Patient Care today.

Kirk A. Lund, MD
Medical Director
Rockwood Cancer Treatment Center

Arvind Chaudhry, MD, PhD
Medical Director
Providence Cancer Center

Ryan F. Holbrook, MD
President
Cancer Care Northwest

Yes, I want to help cancer patients and their families!
